Course: \$250 Non-Physician (PA/NP/RN/EMT)/\$350 Physician

The Advanced Burn Life Support (ABLS) Provider Course is an eight-hour course for physicians, nurses, physician assistants, nurse practitioners, therapists, and paramedics. The course provides guidelines in the assessment and management of the burn patient during the first 24 hours post injury. Following a series of lectures, case studies are presented for group discussions. An opportunity to work with a simulated burn patient to reinforce the assessment, stabilization, and the American Burn Association transfer criteria to a Burn Center will be given. Final testing consists of a written exam and a practical assessment return demonstration. **The ABA designates this activity for up to 7 CME, Category 1 of the Physician's Recognition Award of the American Medical Association. This program also has been approved by AACN Certification Corporation guidelines for 8 contact hours, CERP Category A.**

American Burn Association

Dedicated to improving the lives of everyone affected by burn injury through patient care, education, research and advocacy.
